# HOW IT WORKS

## Our Procedure is very Simple

### Definition:

The word barter can be defined as the action or method of exchanging goods or services without the use of money. The term can also mean the goods or services that are used for such an exchange.

### You Post Item

You tell us what product/ service / asset / investment opportunities that you can **provide**

### You Post an Item

You tell us what product / service / asset / investment opportunities that you **need**

### We Find the Deal for You

As soon as we have a **match** we shall contact you sending you complete details & all the data you need regarding the item you need

### We take care of All related Tasks

We moderate your deal and complete all formalities in a completely confidential way, leaving you free to focus on your core business

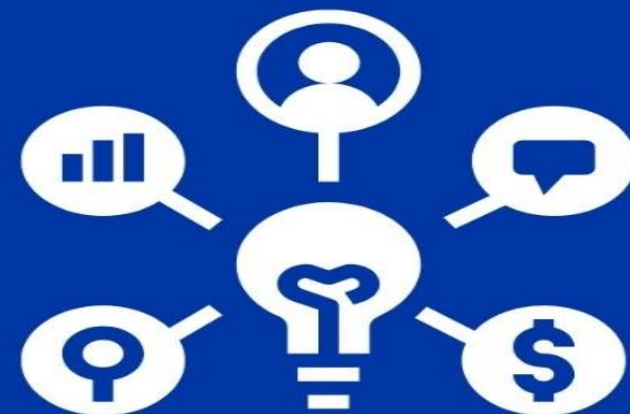

### You get All You need

Our specialized services, from Negotiation / Handling / Shipping / Inspecting to total Commissioning are all at your demand.

# 5 BENEFITS OF BARTER

*A Great Tool for Almost Any Business....*

## 1) Barter Generates NEW Customers:

Barter allows you to expand your market and maintain your cash-paying customers.

## 2) Barter Coordinates the Selling of Surplus Inventory:

We negotiate for you to receive either the going price in the marketplace or your normal selling price to distributors.

## 3) Barter Increases Profitability:

Barter customers pay retail prices, so you get the full value of your goods and services.

## 4) Avoid ONE-ON-ONE Trading Hassles:

Our digital-based trading system lets you use barter dollars from a transaction with one member to trade with any other member in our network and we do the collecting for you!

## 5) Networking Expands Your Customer Base:

Barter customers will bring you cash referrals just like your present clients as long as you give your barter customers the same great services and pricing you offer everyone else.
